I. PREFACE

This cumulative supplement is one of a series of monthly updates to the Approved Prescription Drug Products with Therapeutic Equivalence Evaluations, 3rd Edition, (the List) to cover interim revisions to the annual publication of the List in its entirety. The List is comprised of several parts and some by their nature are identified by the term "list". The cumulative supplements routinely provide updates to two of these lists: The Drug Product List and the Addendum: DESI Pending List.

The List cannot be used effectively without the current cumulative supplement. Users may wish to place an asterisk (*) in the List to the left of the ingredient(s) in the Drug Product List and the product name in the Addendum to indicate that changes to that entry appear in the cumulative supplement. It is also suggested that earlier cumulative supplements be discarded to avoid possible confusion. In this way, only the List and current cumulative supplement need be referenced.

A. DRUG PRODUCT LIST

The Drug Product List cumulative supplements include the changes made since August 1, 1982. Each subsequent cumulative supplement replaces the previous month's cumulative supplement.

Information in this cumulative supplement follows the format of the Drug Product List. The presence of any therapeutic equivalence code indicates that the drug product is multisource; the deletion of a therapeutic equivalence code indicates that the drug product has become single source. (An infrequent exception exists when a therapeutic equivalence code is revised. In that case the deletion of the therapeutic equivalence code is followed immediately by the addition of the revised one.)

Context information on drug products is provided in each cumulative supplement for completeness to assist in locating the proper place in the Drug Product List for the revision. (Strength(s) which already exist in the publication will not be repeated for context.) A page number in parentheses referring to the Drug Product List is located to the right of the ingredient(s).

Additions to the Drug Product List are indicated by new information in the cumulative supplement. Additions new to the current cumulative supplement are indicated by the symbol >ADD> to the left of the line on which new information exists. The >ADD> symbol is dropped in subsequent cumulative supplements for that item.

BEST DOCUMENT AVAILABLE

Deletions from the Drug Product List are indicated by overstruck print in the cumulative supplement. Deletions new to the current cumulative supplement are indicated by the symbol >DLT> (DELETE) to the left of the line containing the overstruck print. The >DLT> symbol is dropped in subsequent cumulative supplements for that item.

A newly approved product is identified by the lozenge ( ) to the right of its strength. This identifier remains throughout all cumulative supplements for this edition.

B. ADDENDUM: DESI Pending List

Information in this cumulative supplement follows the format of the Addendum. Additions and deletions are indicated in the same manner as in the cumulative supplement to the Drug Product List. A change in Current Status of a DESI product is also indicated by an addition and a deletion.

II. SPECIAL NOTES

A. INDICES AND ABBREVIATIONS:

STANDARD TERMS:

Added Route of Administration: INTRAPERITONEAL

B. REPORT OF COUNTS FOR THE DRUG PRODUCT LIST

Categories of counts (pending adjustments to accommodate errata) derived from product information in the Drug Product List and from this cumulative supplement are presented. The report includes counts of new molecular entities approved by the agency during the current month and the past quarter.

BEST COPY AVAILABLE

III. REPORT OF COUNTS FOR THE DRUG PRODUCT LIST

DESCRIPTION OF REPORT

The following report provides summary counts derived from product information in the Drug Product List and the current cumulative supplement. The counts appear in two sections. Section A. refers to the products in the List and Section B. to products in the current cumulative supplement. A new column of data will appear in Section A. each three-month period following July '82. Section A. therefore will provide baseline and quarterly data while Section B. provides monthly activity.

USE OF REPORT

From the data presented under Section B., users should be able to observe such things as (1) newly approved, DESI effective and remarketed drug products which are added to the List; (2) products that are being removed from the List as the result of withdrawal of approval, changes from prescription to over-the-counter status and discontinued marketing of products; and, (3) trends in approval of products as either multisource or single source during each month within the quarter. The report does not reflect category changes from multisource to single source and vice versa. However, the net gain that results from all additions, deletions and category changes is reflected in the quarterly counts for multisource and single source products.

Drug Product Definition

For this report, a drug product is the representation in the Drug Product List of an active moiety (includes molecular entity and its salts, esters and derivatives) either as a single entity or as a combination product, provided in a specific dosage form and strength for a given route of administration marketed by a firm under a particular generic or trade name.

New Molecular Entity

The active moiety has not previously been approved (either as the parent compound or as a salt, ester or derivative of the parent compound) in the United States for use in a drug product either as a single ingredient or part of a combination.

Drug Product Count

This report provides counts (pending adjustments to accommodate errata) in several categories from the list composed of domestically marketed drug products approved for both safety and effectiveness under sections 505 and 507 of the Federal Food, Drug, and Cosmetic Act. Counts of products still pending in the DESI review are not provided. Excluded also are those approved drug products marketed by distributors; those marketed solely abroad; and products now regarded as medical devices, biologics or foods. Also not included in the counts are those duplicate products of a given applicant whose only distinguishing characteristics are items such as package size, inactive ingredient(s), color and alternate manufacturing sites. These various counts are excluded because the Drug Product List itself excludes products from these categories.

APPROVED PRESCRIPTION DRUG PRODUCTS

WITH
THERAPEUTIC EQUIVALENCE EVALUATIONS

2ND EDITION

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
PUBLIC HEALTH SERVICE
FOOD AND DRUG ADMINISTRATION
BUREAU OF DRUGS

HE20.4210:

FOOD AND DRUG ADMINISTRATION
APPROVED PRESCRIPTION DRUG PRODUCTS
WITH
THERAPEUTIC EQUIVALENCE EVALUATIONS
CUMULATIVE SUPPLEMENT

I. PREFACE

This cumulative supplement is one of a series of monthly updates to the Approved Prescription Drug Products with Therapeutic Equivalence Evaluations, 2nd Edition, (the List) to cover interim revisions to the annual publication of the List in its entirety. The List is comprised of several parts and some by their nature are identified by the term "list". The cumulative supplements routinely provide updates to two of these lists: The Drug Product List and the Addendum: DESI Pending List.

The List cannot be used effectively without the current cumulative supplement. Users may wish to place an asterisk (*) in the List to the left of the ingredient(s) in the Drug Product List and the product name in the Addendum to indicate that changes to that entry appear in the cumulative supplement. It is also suggested that earlier cumulative supplements be discarded to avoid possible confusion. In this way, only the List and current cumulative supplement need be referenced.

A. DRUG PRODUCT LIST

The Drug Product List cumulative supplements include the changes made since August 1, 1981. Each subsequent cumulative supplement replaces the previous month's cumulative supplement.

Information in this cumulative supplement follows the format of the Drug Product List. The presence of any therapeutic equivalence code indicates that the drug product is multisource; the deletion of a therapeutic equivalence code indicates that the drug product has become single source. (An infrequent exception exists when a therapeutic equivalence code is revised. In that case the deletion of the therapeutic equivalence code is followed immediately by the addition of the revised one.)

Context information on drug products is provided in each cumulative supplement for completeness to assist in locating the proper place in the Drug Product List for the revision. A page number in parentheses referring to the Drug Product List is located to the right of the ingredient(s).

Additions to the Drug Product List are indicated by new information in the cumulative supplement. Additions new to the current cumulative supplement are indicated by the symbol >ADD> to the left of the line on which new information exists. The >ADD> symbol is dropped in subsequent cumulative supplements for that item.

Deletions from the Drug Product List are indicated by overstruck print in the cumulative supplement. Deletions new to the current cumulative supplement are indicated by the symbol >DLT> (DELETE) to the left of the line containing the overstruck print. The >DLT> symbol is dropped in subsequent cumulative supplements for that item.

A newly approved product is identified by the lozenge (◆) to the right of its strength. This identifier remains throughout all cumulative supplements for this edition.

B. Addendum: DESI PENDING LIST

Information in this cumulative supplement follows the format of the Addendum. Additions and deletions are indicated in the same manner as in the cumulative supplement to the Drug Product List. A change in Current Status of a DESI product is also indicated by an addition and a deletion.

II. SPECIAL NOTES

A. The INTRODUCTION to the 2nd Edition (1981 publication) of the Approved Prescription Drug Products with Therapeutic Equivalence Evaluations (Section II.F.5.) stated that "Protein hydrolysate injections are omitted because of safety problems." The safety problems have been resolved. Publication on this subject appeared in the FEDERAL REGISTER of July 14, 1981 (46 FR 36249). Therefore, a parenteral protein hydrolysate (see Amigen) now is approved and marketed as well as the existing related parenteral amino acid mixture solutions.

B. FUROSEMIDE The change in the therapeutic equivalence code for Cord Laboratories' Furosemide tablets from BX to AB reflects receipt of additional data from the firm; examination of other information on file with the Agency; and a determination that the initial bioequivalence study performed by the firm was satisfactory for demonstrating product bioequivalence so that a subsequent additional study was not necessary.

C. METHOXSALEN CAPSULES The therapeutic equivalence code for Methoxsalen capsules, 10mg, manufactured by Cord Laboratories and Elder Pharmaceuticals has been changed from AA to BP. A report in the literature has identified bioinequivalence between different brands of methoxsalen capsule products. On this basis the Agency believes studies are necessary to demonstrate product bioequivalence before an evaluation of therapeutic equivalence can be made.

D. APPENDICES: ROUTES OF ADMINISTRATION

Added term: PERFUSION, CARDIAC

APPLICANT (NAME) CHANGES

Former Applicant (Name)	New Applicant (Name)	New Abbreviated Name
CIS RADIOPHARMACEUTICALS INC	SYNCOR INTL CORPORATION	SYNCOR INTL
D-M PHARMACEUTICALS INC	LEMMON COMPANY	LEMMON
DOME LABORATORIES DIV MILES LABORATORIES INC	MILES PHARMACEUTICALS DIV MILES LABORATORIES INC	MILES PHARMS/MILES
LEMMON PHARMACAL COMPANY	LEMMON COMPANY	LEMMON
PHILIPS ROXANE LABORATORIES INC	ROXANE LABORATORIES INC	ROXANE LABORATORIES
UNION CARBIDE CORPORATION	CINTICHEM INC	CINTICHEM

The reader should consult this special list each month to become aware of such transfers and changes. By referring to the Applicant Index in the 2nd Edition, the transferred products can be identified. The reader might wish to flag these products in the List as a reminder that the applicant has been changed.

CUMULATIVE SUPPLEMENT

I. PREFACE

This cumulative supplement is one of a series of monthly updates to the Approved Prescription Drug Products with Therapeutic Equivalence Evaluations, 2nd Edition, (the List) to cover interim revisions to the annual publication of the List in its entirety. The List is comprised of several parts and some by their nature are identified by the term "list". The cumulative supplements routinely provide updates to two of these lists: The Drug Product List and the Addendum: DESI Pending List.

The List cannot be used effectively without the current cumulative supplement. Users may wish to place an asterisk (*) in the List to the left of the ingredient(s) in the Drug Product List and the product name in the Addendum to indicate that changes to that entry appear in the cumulative supplement. It is also suggested that earlier cumulative supplements be discarded to avoid possible confusion. In this way, only the List and current cumulative supplement need be referenced.

A. DRUG PRODUCT LIST

The Drug Product List cumulative supplements include the changes made since August 1, 1981. Each subsequent cumulative supplement replaces the previous month's cumulative supplement.

Information in this cumulative supplement follows the format of the Drug Product List. The presence of any therapeutic equivalence code indicates that the drug product is multisource; the deletion of a therapeutic equivalence code indicates that the drug product has become single source. (An infrequent exception exists when a therapeutic equivalence code is revised. In that case the deletion of the therapeutic equivalence code is followed immediately by the addition of the revised one.)

Context information on drug products is provided in each cumulative supplement for completeness to assist in locating the proper place in the Drug Product List for the revision. A page number in parentheses referring to the Drug Product List is located to the right of the ingredient(s).

Additions to the Drug Product List are indicated by new information in the cumulative supplement. Additions new to the current cumulative supplement are indicated by the symbol >ADD> to the left of the line on which new information exists. The >ADD> symbol is dropped in subsequent cumulative supplements for that item.

Deletions from the Drug Product List are indicated by overstruck print in the cumulative supplement. Deletions new to the current cumulative supplement are indicated by the symbol >DLT> (DELETE) to the left of the line containing the overstruck print. The >DLT> symbol is dropped in subsequent cumulative supplements for that item.

A newly approved product is identified by the lozenge (⋆) to the right of its strength. This identifier remains throughout all cumulative supplements for this edition.

Addendum: DESI PENDING LIST

Information in this cumulative supplement follows the format of the Addendum. Additions and deletions are indicated in the same manner as in the cumulative supplement to the Drug Product List. A change in Current Status of a DESI product is also indicated by an addition and a deletion.

II. SPECIAL NOTES

The INTRODUCTION to the 2nd Edition (1981 publication) of the Approved Prescription Drug Products with Therapeutic Equivalence Evaluations (Section II.F.5.) stated that "Protein hydrolysate injections are omitted because of safety problems." The safety problems have been resolved. Publication on this subject appeared in the FEDERAL REGISTER of July 14, 1981 (46 FR 36249). Therefore, a parenteral protein hydrolysate (see Amigen) now is approved and marketed as well as the existing related parenteral amino acid mixture solutions.

FUROSEMIDE The change in the therapeutic equivalence code for Cord Laboratories' Furosemide tablets from BX to AB reflects receipt of additional data from the firm; examination of other information on file with the Agency; and a determination that the initial bioequivalence study performed by the firm was satisfactory for demonstrating product bioequivalence so that a subsequent additional study was not necessary.

METHOXSALEN CAPSULES The therapeutic equivalence code for Methoxsalen capsules, 10mg, manufactured by Cord Laboratories and Elder Pharmaceuticals has been changed from AA to BP. A report in the literature has identified bioinequivalence between different brands of methoxsalen capsule products. On this basis the Agency believes studies are necessary to demonstrate product bioequivalence before an evaluation of therapeutic equivalence can be made.

APPENDICES: ROUTES OF ADMINISTRATION

Added terms: PERFUSION, CARDIAC
INTRAPERITONEAL

APPLICANT (NAME) CHANGES

Former Applicant (Name)	New Applicant (Name)	New Abbreviated Name
CIS RADIOPHARMACEUTICALS INC	SYNCOR INTL CORPORATION	SYNCOR INTL
D-M PHARMACEUTICALS INC	LEMMON COMPANY	LEMMON
DOME LABORATORIES DIV MILES LABORATORIES INC	MILES PHARMACEUTICALS DIV MILES LABORATORIES INC	MILES PHARMS/MILES

ADDENDUM
DESI PENDING LIST
CUMULATIVE SUPPLEMENT NUMBER 12 / AUGUST '81 - AUGUST '82

CURRENT STATUS - PROBABLY EFFECTIVE

/PARAFON/ /MCNEIL PHARM/
/ACETAMINOPHEN; CHLORZOXAZONE/

/PARAFON FORTE/ /MCNEIL PHARM/
/ACETAMINOPHEN; CHLORZOXAZONE/

/SUPERTAR-HC/ /PURDUE FREDERICK/
/COAL TAR SOLUTION; HYDROCORTISONE/

/TARCORTIN/ /REED & CARNRICK/
/COAL TAR EXTRACT; HYDROCORTISONE/

CURRENT STATUS - INEFFECTIVE

ACTIFED-C EXPECTORANT BURROUGHS WELLCOME
CODEINE PHOSPHATE; GUAIFENESIN;
PSEUDOEPHEDRINE HYDROCHLORIDE; TRIPROLIDINE HYDROCHLORIDE

/AEROSPORIN/ /BURROUGHS WELLCOME/
/POLYMYXIN B SULFATE/

/ALEVAIR/ /WINTHROP LABS/STERL/
/TYLOXAPOL/

AMBENYL EXPECTORANT MARION LABORATORIES
AMMONIUM CHLORIDE; BROMODIPHENHYDRAMINE HYDROCHLORIDE;
CODEINE SULFATE; DIPHENHYDRAMINE HYDROCHLORIDE; MENTHOL;
POTASSIUM GUAIACOLSULFONATE

/BENYLIN/ /PARKE-DAVIS/W-L/
/AMMONIUM CHLORIDE; DIPHENHYDRAMINE HYDROCHLORIDE; MENTHOL/
/SODIUM CITRATE/

BLEPHAMIDE ALLERGAN PHARMS
PHENYLEPHRINE HYDROCHLORIDE; PREDNISOLONE ACETATE;
SULFACETAMIDE SODIUM

/BUTAZOLIDIN ALKA/ /GEIGY/CIBA-GEIGY/
/ALUMINUM HYDROXIDE GEL, DRIED; MAGNESIUM TRISILICATE;/
/PHENYLBUTAZONE/

CLISTIN RA MCNEIL PHARM
CARBINOXAMATE MALEATE

DIMETANE EXPECTORANT AH ROBINS
BROMPHENIRAMINE MALEATE; GUAIFENESIN;
PHENYLEPHRINE HYDROCHLORIDE;
PHENYLPROPANOLAMINE HYDROCHLORIDE

CURRENT STATUS - INEFFECTIVE

DIMETANE EXPECTORANT-DC AH ROBINS
BROMPHENIRAMINE MALEATE; CODEINE PHOSPHATE; GUAIFENESIN;
PHENYLEPHRINE HYDROCHLORIDE;
PHENYLPROPANOLAMINE HYDROCHLORIDE

FORHISTAL CIBA/CIBA-GEIGY
DIMETHINDENE MALEATE

/LIDOSPORIN/ /BURROUGHS WELLCOME/
/LIDOCAINE HYDROCHLORIDE; POLYMYXIN B SULFATE/

METAMINE PFIZER LABS/PFIZER
TROLNITRATE PHOSPHATE

NITRANITOL MERRELL-NATL/R-MERRL
MANNITOL HEXANITRATE

NITRETAMIN ER SQUIBB AND SONS
TROLNITRATE PHOSPHATE

NITRETAMIN-10 ER SQUIBB AND SONS
TROLNITRATE PHOSPHATE

/ONYCHO-PHYTEX/ /UNIMED/
/BOROTANNIC COMPLEX; SALICYLIC ACID/

OMNI-TUSS PENWALT PHARM
CHLORPHENIRAMINE MALEATE; CODEINE SULFATE; EPHEDRINE SULFATE;
GUAIACOL CARBONATE; PHENYLTOLOXAMINE DIHYDROGEN SULFATE

PARAFON MCNEIL PHARM
ACETAMINOPHEN; CHLORZOXAZONE

PARAFON FORTE MCNEIL PHARM
ACETAMINOPHEN; CHLORZOXAZONE

/PATHILON W/ PHENOBARBITAL SEQUELS/ /LEDERLE LABS/AM CYAN/
/PHENOBARBITAL; TRIDIHEXETHYL CHLORIDE/

PENTESTAN-80 STANDEX LABS
PENTAERYTHRITOL TETRANITRATE

PENTYRATE OJ&F/CHROMALLOY
PENTAERYTHRITOL TETRANITRATE

PHENERGAN EXPECTORANT WYETH LABS/AMHO
CITRIC ACID; IPECAC; POTASSIUM GUAIACOLSULFONATE; PROMETHAZINE
HYDROCHLORIDE; SODIUM CITRATE

PHENERGAN EXPECTORANT W/CODEINE WYETH LABS/AMHO
CITRIC ACID; CODEINE PHOSPHATE; IPECAC FLUID EXTRACT; POTASSIUM
GUAIACOLSULFONATE; PROMETHAZINE HYDROCHLORIDE; SODIUM CITRATE

CURRENT STATUS - INEFFECTIVE

PHENERGAN EXPECTORANT W/ DEXTROMETHORPHAN WYETH LABS/AMHO
CITRIC ACID; DEXTROMETHORPHAN HYDROBROMIDE; IPECAC FLUIDEXTRACT
POTASSIUM GUAIACOLSULFONATE; PROMETHAZINE HYDROCHLORIDE; SODIUM CITRATE

PHENERGAN VC EXPECTORANT WYETH LABS/AMHO
CITRIC ACID; IPECAC FLUIDEXTRACT; PHENYLEPHRINE HYDROCHLORIDE;
POTASSIUM GUAIACOLSULFONATE; PROMETHAZINE HYDROCHLORIDE; SODIUM CITRATE

PHENERGAN VC EXPECTORANT W/ CODEINE WYETH LABS/AMHO
CITRIC ACID; CODEINE PHOSPHATE; IPECAC FLUIDEXTRACT;
PHENYLEPHRINE HYDROCHLORIDE; POTASSIUM GUAIACOLSULFONATE;
PROMETHAZINE HYDROCHLORIDE; SODIUM CITRATE

/PROPION/ /WYETH LABS/AMHO/
/CALCIUM PROPIONATE; SODIUM PROPIONATE/

/TETRASULE-80/ /ARNAR-STONE/AM HOSP/
/PENTAERYTHRITOL TETRANITRATE/

TUSSIONEX PENWALT PHARM
DIHYDROCODEINONE; PHENYLTOLOXAMINE DIHYDROGEN SULFATE

CURRENT STATUS - 'EXEMPT' (COURT ORDER)

/ACTIFED/ /BURROUGHS WELLCOME/
/PSEUDOEPHEDRINE HYDROCHLORIDE; D-; TRIPOLIDINE HYDROCHLORIDE/

/ACTIFED-C EXPECTORANT/ /BURROUGHS WELLCOME/
/CODEINE PHOSPHATE; GUAIFENESIN;/
/PSEUDOEPHEDRINE HYDROCHLORIDE D-; TRIPROLIDINE HYDROCHLORIDE/

/AMBENYL EXPECTORANT/ /MARION LABORATORIES/
/AMMONIUM CHLORIDE; BROMODIPHENHYDRAMINE HYDROCHLORIDE;/
/CODEINE SULFATE; DIPHENHYDRAMINE HYDROCHLORIDE; MENTHOL;/
/POTASSIUM GUAIACOLSULFONATE/

BAROPHEN NATL PHARM MFG/BARRE
ATROPINE SULFATE; HYOSCYAMINE SULFATE; PHENOBARBITAL;
SCOPOLAMINE HYDROBROMIDE

BAY-ASE BAY LABORATORIES
ATROPINE SULFATE; HYOSCYAMINE SULFATE; PHENOBARBITAL;
SCOPOLAMINE HYDROBROMIDE

BELLADONNA ALKALOIDS W/ PHENOBARBITAL LEMMON
ATROPINE SULFATE; HYOSCYAMINE SULFATE; PHENOBARBITAL;
SCOPOLAMINE HYDROBROMIDE

BELLASTAL WHARTON/US ETHICALS
ATROPINE SULFATE; HYOSCYAMINE SULFATE; PHENOBARBITAL;
SCOPOLAMINE HYDROBROMIDE

CURRENT STATUS - 'EXEMPT' (COURT ORDER)

/BLEPHAMIDE/ /ALLERGAN PHARMS/
/PHENYLEPHRINE HYDROCHLORIDE; PREDNISOLONE ACETATE;/
/SULFACETAMIDE SODIUM/

BUTABAR BELLADONNA NATL PHARM MFG/BARRE
BELLADONNA ALKALOIDS; BUTABARBITAL SODIUM

/CALDECORT/ /PENNWALT PHARM/
/CALCIUM UNDECYLENATE; HYDROCORTISONE ACETATE/

CHARDONNA-2 WILLIAM H RORER
BELLADONNA EXTRACT; PHENOBARBITAL

/CLISTIN EXPECTORANT/ /MCNEIL PHARM/
/AMMONIUM CHLORIDE; CARBINOXAMINE MALEATE;/
/POTASSIUM GUAIACOLSULFONATE; SODIUM CITRATE/

/CLISTIN PA/ /MCNEIL PHARM/
/CARBINOXAMATE MALEATE/

/CODITRATE/ /CENTRAL PHARMACAL/
/CITRIC ACID; DIHYDROCODEINE BITARTRATE;/
/POTASSIUM GUAIACOLSULFONATE; SODIUM CITRATE/

/COR-TAR-QUIN/ /DOME LABS/MILES LABS/
/COAL TAR SOLUTION; DIIODOHYDROXYQUIN; HYDROCORTISONE/

/CORBRAN-N/ /ELI LILLY/
/FLURANDRENOLIDE; NEOMYCIN SULFATE/

/DIMETANE EXPECTORANT/ /AH ROBINS/
/BROMPHENIRAMINE MALEATE; GUAIFENESIN;/
/PHENYLEPHRINE HYDROCHLORIDE;/
/PHENYLPROPANOLAMINE HYDROCHLORIDE/

/DIMETANE EXPECTORANT-DC/ /AH ROBINS/
